THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

DETAILED ACTION***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 29 December 2008 has been entered.

Response to Arguments

Applicant's arguments, see pages 9-13, filed 29 December 2008, with respect to the rejections of the claims under 35 U.S.C. § 103(a) have been fully considered and are persuasive. The rejections of the claims under 35 U.S.C. § 103(a) have been withdrawn.

Firstly, with respect to Applicant's disagreement with the Board's decision, Examiner simply points out that the Board's decision is controlling, and that other options are available to an applicant who is dissatisfied with a decision by the Board. A rehearing is available if Applicant believes there are new grounds of rejection. See 37 C.F.R. § 41.50(b)(2), MPEP § 1213. Judicial review is also available to an applicant who is dissatisfied with the Board's decision. See MPEP § 1216. However, since Applicant has filed for continued examination and has amended the claims, Applicant's arguments with respect to the Board's decision are now largely moot.

Examiner agrees with Applicant that Applicant's present amendments to claim 40, which is the sole independent claim, overcome the previously cited combination of Ichihara (US-5,198,853) and Feng (US-6,046,828). Furthermore, Examiner has not discovered any additional

Art Unit: 2625

prior art which anticipates the claims and/or renders the claims obvious to one of ordinary skill in the art at the time of the invention. Accordingly, the present application is allowed.

Allowable Subject Matter

Claims 2-15, 17, 18, 20-28, 34 and 40 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 40 recites an image system for sensing an object. The system includes an image sensor comprising an array of photo-receptive sites; a backing having a surface opposed to the image sensor; and an image processor having a plurality of stat buffers that analyzes candidate edges for boundary regions and identifies shadows cast by an object adjacent to the backing as edges of the boundary region. The analysis and identification are based on at least two factors. The first factor is a variable luminance threshold value which is automatically calculated using a maximum instance of a plurality of statistical values measured over at least one of a column or a row of said array. The variable luminance threshold value causes a detection of shadows cast by the object on the backing. The second factor is if the presence of the detection of the shadows is contiguous in the plurality of stat buffers.

Independent claim 40 is advantageous over the prior art since it allows, among other things, the robust detection of documents in an image scanner when the document color is similar or the same as the color of the image scanner backing. The particular system recited in claim 40 has not been found by Examiner in the prior art, either in a single reference or in an obvious combination of references. The closest prior art discovered is the aforementioned combination of Ichihara and Feng. The combination of Ichihara and Feng does not disclose the use of a variable luminance threshold value automatically calculated using a maximum instance of a plurality of statistical values measured over at least one of a column or a row of the array, which is used by

Art Unit: 2625

the system of claim 40 to detect shadows cast by an object on the backing. While Ichihara applies a variable threshold based on a statistical measure to detect shadows cast by an object on the backing, Ichihara does not use a *maximum* instance of a *plurality* of statistical values measured over at least one of a column or a row of an array of photo-receptive sites. Thus, claim 40 provides a distinctive and a more robust approach to detecting document edge regions than found in the combination of Ichihara and Feng.

Independent claim 40 distinguishes over the prior art for the reasons articulated above, and is therefore deemed allowable.

Claims 2-15, 17, 18, 20-28, 34 and 40 each depend ultimately from claim 40, and are therefore also deemed allowable at least due to their respective dependencies from an allowable claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
